

Software Outsourcing for Startups & SMEs

We turn your ideas into world-class software — fast, reliable,
and **built to scale.**

COMPANY INTRODUCTION • 2026

About Herond Labs

Herond Labs is a Vietnam-based software development company specializing in outsourcing solutions for startups and SMEs worldwide. We combine deep technical expertise with agile execution to deliver high-quality products on time and within budget.

We don't follow the future. We build it.

MISSION

Empower startups & SMEs with enterprise-grade software at startup speed.

Why Choose Herond Labs?

Speed to Market

Lean, agile teams that deliver MVPs in weeks, not months.

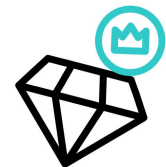

Dedicated Teams

Senior engineers assigned exclusively to your project.

Quality Assurance

Rigorous QA process, code reviews & security checks.

Scalable Solutions

Architecture designed for growth from day one.

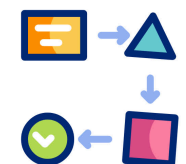

Innovation-First

We bring ideas and improvements — not just execution.

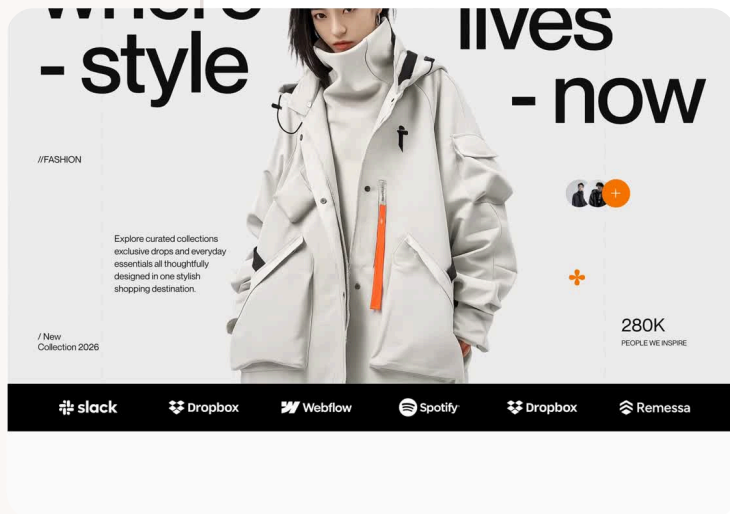

Transparent Process

Regular updates, clear milestones, no surprises.

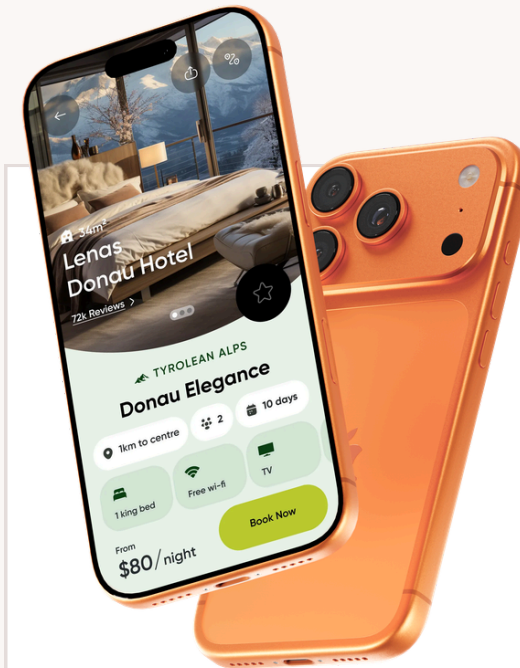

Our Core Services

End-to-end software development tailored to your business needs.

Web Application Development

- React, Vue, Angular frontends
- CMS & e-commerce platforms
- Node.js / Python / .NET Core backends
- TypeScript & modern frameworks

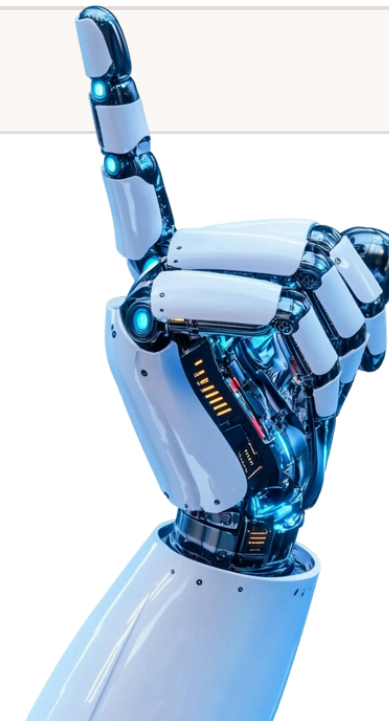

Mobile App Development

- Native iOS (Swift)
- Cross-platform (React Native / Flutter)
- Native Android (Java / Kotlin)
- App Store deployment support

Desktop Application Development

- Windows & macOS applications
- C++ high-performance software
- Java desktop applications
- .NET / WPF solutions

Custom Software & AI

- Bespoke business tools & dashboards
- Data pipelines & analytics
- AI / ML feature integration
- Legacy system modernization

Work We've Shipped

NHÓM 01

Our Own Products

Built, shipped and supported by us

- Herond Browser

Chromium browser on 4 platforms
- Herond Wallet

Non-custodial, no seed phrase
- BlockBase

Web3 ecosystem infrastructure

4 platforms · 99.5% crash-free · 4.8★

NHÓM 02

Finance & Enterprise

Dedicated team engagements

- Dragon Capital

Fund, pension & sales platforms
- Quantrust

Contract, accrual and payout engine
- Zwilling

Quality & inspection systems, SAP

\$5.5B+ AUM · 1M+ orders · 100+ subsidiaries

NHÓM 03

Retail, Commerce & Media

Dedicated team & fixed-price projects

- Kymdan

ERP, web and app across 120 stores
- FanFan

Cloud ERP across 5 sales channels
- MetaLook

News aggregator with AI summaries

18k+ orders a month · 8 channels · 100+ sources

Our own product. A Chromium-based Web3 browser we build, ship and support on four platforms — with a built-in non-custodial wallet, an ad and tracker blocking engine, and a decentralized VPN. Everything we learned running it is what we bring to client work.

Dragon Capital

Vietnam's leading private asset manager — 25+ years in market, \$6B AUM, 150+ investment professionals. We built DragonX, a mutual fund investment platform across mobile, web and portal; DragonS, the investor management portal for sales; and the first pension fund system in Vietnam.

Zwilling J.A.Henckels

A German premium kitchenware and cutlery maker founded in 1731, selling in over 100 countries. We built the quality inspection, scheduling, product and order management systems that run across its subsidiaries — integrated with SAP.

Kymdan

Vietnam's leading mattress brand, selling through its own stores and distributors since 1954. We built the ERP, website and app that moved the business online and connected eight sales channels to one inventory — the transformation that carried it through Covid-19.

CLIENT WORK · CLOUD ERP

Real-time inventory sync · warranty tracking · promotion management

FanFan

Vietnam's leading chain store for trekking, camping and outdoor equipment. We built a cloud ERP that ties its stores, warehouses and five sales channels to a single inventory — with a customer-facing shop running on the same system.

CLIENT WORK · CLOUD ERP

POS integration · real-time inventory sync · multi-store scalability

Quantrust

An investment management company backed by BlockBase. When the fund needed a production-grade platform for one of its portfolio companies, it brought the work to us. We built everything between the investor and the contract: onboarding, agreements, daily accrual, scheduled payouts and reporting.

MetaLook

A Web3 and blockchain news platform built with MetaLook, the licensed publisher behind it. The pipeline ingested more than a hundred public sources, clustered near-duplicate stories and wrote a short AI summary for each one, in Vietnamese and English. No longer operating.

Flexible Engagement Models

MODEL 01

Fixed-Price Project

BEST FOR

Well-defined scope

- Clear deliverables & milestones
- Agreed budget upfront
- Ideal for MVPs & defined features
- Regular demo checkpoints

MODEL 02

Dedicated Team

BEST FOR

Ongoing development

- Full-time engineers, yours exclusively
- Direct team communication
- Flexible scaling up or down
- Monthly retainer model

MODEL 03

Time & Material

BEST FOR

Evolving requirements

- Pay only for hours worked
- Maximum flexibility
- Ideal for R&D / exploration
- Weekly billing & reporting

How We Work

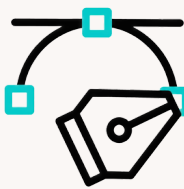

Six stages, from the first requirements workshop to ongoing scaling.

01

Discovery

Requirements workshop, scope definition & tech stack selection.

02

Design

UX wireframes, system architecture & sprint planning.

03

Development

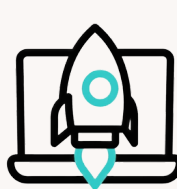

Agile sprints with bi-weekly demos and code reviews.

04

QA & Testing

Automated & manual testing, security audits, performance checks.

05

Launch

Staged deployment, monitoring setup & go-live support.

06

Support

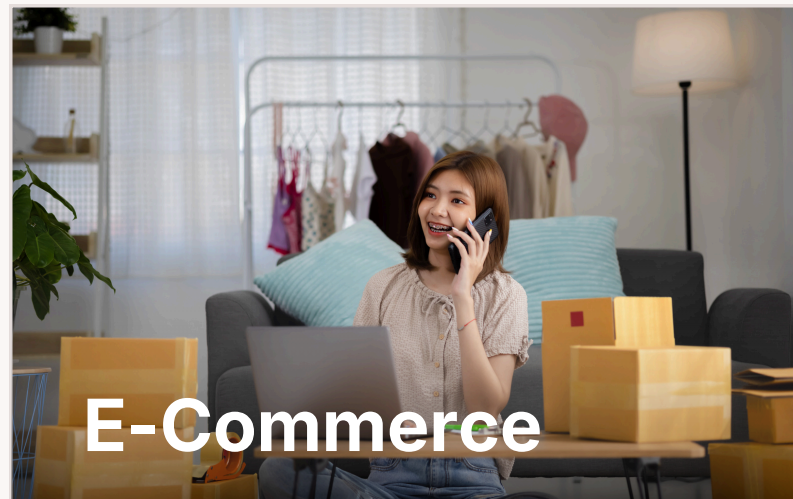

Ongoing maintenance, feature iterations & scaling.

Our Technology Stack

Web Dev	Mobile	Desktop	Custom, AI & Web3	Infrastructure
React / Vue.js	Swift (iOS)	Java (Swing / FX)	Python / FastAPI	AWS / GCP
Next.js	Java / Kotlin	C++ / Qt	OpenAI API	Docker
Node.js / Nest.js	React Native	.NET / WPF	PostgreSQL	CI/CD
.NET Core	Flutter	Cross-platform	Solidity / ERC-4337	GitHub Actions

Industries We Serve

Domain experience across eight sectors.
